Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

NOTICE OF MOTION

TAKE NOTICE that pursuant to Section 17 of *The Ontario Highway Transport Board Act*, A-I Moving & Transport Limited will move the Ontario Highway Transport Board at such time as the said Board may deem appropriate for an Order directing:

- (a) a review of the Order and Certificate emanating from the Reasons for Decision dated May 18th, 1976; and/or
- (b) a rehearing either in whole or in part before a Panel which has not been seized with the matter under review prior to the date of the Reasons for Decision appealed from,

including without limiting the generality of the foregoing the right of the Reviewee to call expert evidence as to,

- (i) the proper interpretation of the laws of the Province of Quebec and the Order of the Quebec Transportation Board, and
- (ii) accepted trade practices and understanding as to the meaning of the words "crated and uncrated", and
- (iii) the meaning of the word "furniture" when used in conjunction with the movement of household goods historically in the Province of Ontario and between the Province of Ontario and the Province of Quebec,

on the following grounds:

- (1) The Sitting Panel erred in its interpretation of the operating licence held by the licensee as issued by the Transportation Board of the Province of Quebec. Said error is both one of substance and of law.
- (2) The Sitting Panel erred in its interpretation of the word "uncrated". In particular the use of the word "uncrated" as designating "furni-

ture that had no protective covering applied to it" is contrary to law and contrary to established transportation practice and understanding in the transportation industry.

- (3) The Sitting Panel erred in its definition of the word "furniture" in the light of the regulations published pursuant to *The Public Commercial Vehicles Act* at the date of the issuance of the original authority by the Ontario Highway Transport Board to the licensee.
- (4) The Sitting Panel erred in its interpretation of the Quebec Transport Commission case M-7323.
- (5) The Sitting Panel exceeded its jurisdiction in cancelling the existing authority held by the licensee and substituting therefor authority far broader in part and far more restricted in other parts without a public hearing as required by *The Ontario Highway Transport Board Act*, and has fixed Thursday, the 9th day of September, 1976, at its Chambers, Britannica House, 151 Bloor Street West, 10th Floor, Toronto, Ontario, at 10 a.m. (E.D.S.T.) for that purpose.

NOTICE OF MOTION

TAKE NOTICE that pursuant to Section 17 of *The Ontario Highway Transport Board Act*, Inter-Change Cartage Limited will move the Ontario Highway Transport Board at such time as the said Board may deem appropriate for an Order directing:

- (a) a review of the Order emanating from the Reasons for Decision dated September 11th, 1975,
- (b) a rehearing either in whole or in part of the application of Inter-Change Cartage Limited leading to the aforesaid Order, and/or in the alternative,
- (c) the Applicant be permitted to introduce new evidence to clarify specific issues raised in the aforesaid Reasons for Decision,

on the following grounds:

- (a) The Sitting Panel in its Reasons for Decision erred in finding that Inter-Change Limited "did not operate as a freight forwarder prior to the time that the regulations came into effect requiring freight forwarders to have a freight forwarders licence".
- (b) The Sitting Panel erred in not giving sufficient weight to the evidence adduced in support of the Applicant.
- (c) The Sitting Panel erred in not distinguishing between the corporate entity, Parent Cartage Limited, and the Applicant as different persons in law.
- (d) The Sitting Panel failed to direct itself to the question of issuing a freight forwarders licence to the Applicant provided that the Applicant did not provide any service in conjunction with Parent Cartage Limited.
- (e) The Sitting Panel erred in failing to consider the substantial investment of the Applicant in its business and the serious consequence to the Applicant of failing to have its freight forwarders licence renewed in accordance with the circumstances of the application.
- (f) The Sitting Panel erred in failing to direct its attention to the inherent necessity and convenience served by the Applicant to the many users of its service independent of its association with Parent Cartage Limited.
- (g) The Sitting Panel failed to exercise its jurisdiction or declined jurisdiction in that it did not consider the distinction between the renewal of a licence pursuant to Section 12 d (3) of *The Public Commercial Vehicles Act* and the issuance of a licence on the grounds of public necessity and convenience in accordance with Section 12f of *The Public Commercial Vehicles Act*.
- (h) The Sitting Panel erred in failing to consider the effect which the denial of the subject application would have upon the Applicant, its employees and its shareholders.
- (i) That as a result of the foregoing fundamental errors on the face of the record, the Sitting Panel effectively denied to the shipping public a service which had been provided by the Applicant continuously since 1972 pursuant to validly issued freight forwarders licences.
- (j) That until 1975 the Applicant had operated continuously, as did Parent Cartage Limited, without challenge from the Ontario Highway Transport Board or the Ministry of Transportation and Communications. The Sitting Panel erred in not taking into consideration the state of affairs to which all levels of government had acquiesced for a period of three years.

- (k) And upon such other grounds as Counsel may advise.

And in support of such Notice of Motion will be read the Reasons for Decision as issued by the Ontario Highway Transport Board dated September 11, 1975 and will be heard argument by Counsel on behalf of Inter-Change Cartage Limited.

All of which is respectfully submitted.

Dated this 28th day of June, 1976.

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover flue-cured tobacco.

GENERAL TERMS AND CONDITIONS

1.—(1) Where the insured person is an owner with a sharegrower, he is eligible for insurance coverage only under Section A in respect of sharecropped allotment.

(2) Where the insured person is an owner who grows his own crop, he is eligible for insurance coverage under Sections A and B.

(3) Where the insured person himself grows all or part of his allotment, in order to obtain insurance under Section A, he must insure all his allotted poundage under a single contract.

(4) Where the insured person is a sharegrower, he is eligible for insurance coverage only under Section B.

2.—(1) It shall be the responsibility of the insured person to establish that sufficient acreage has been

planted to yield the allotted poundage under normal growing conditions.

(2) Where, in the opinion of the Commission the insured person has not planted sufficient acreage to yield the allotted poundage under normal growing conditions, the insurance coverage and indemnity payable shall be reduced proportionately.

3. All acreage planted to flue-cured tobacco in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the planted acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

EVALUATION OF LOSS

4. For the purpose of determining the loss in production of flue-cured tobacco in a crop year and the indemnity payable therefor, the value of the crop shall progress through the stages prescribed in Sections A and B.

SECTION A

STAGE 1

5.—(1) Stage 1 comprises the period from the commencement of planting or noon of the 20th day of May first occurring in the crop year, whichever is the later, to noon of the 20th day of June in the crop year.

(2) Where loss or damage occurs in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres.

(3) Where the damaged acreage is replanted to the insured crop pursuant to Section B, the contract of insurance shall continue to apply to such replanted acreage.

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying 40 per cent of the allotted poundage applicable to the damaged acreage by one-half the contract price per pound.

(5) Where the damaged acreage is not used for any other purpose or the crop is not abandoned or destroyed after the Commission has consented

thereto, the amount of loss calculated under subparagraph 4 shall not be taken into account in the final adjustment of loss.

(6) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and to calculate the amount of loss in the manner prescribed in subparagraph 4 with respect to such damaged acreage and, where notice of such intention has been given, the Commission shall calculate accordingly the amount of loss to be taken into account in the final adjustment of loss and the value of the insured crop on such damaged acreage shall not progress beyond Stage 1.

STAGE 2

6.—(1) Stage 2 commences at noon on the 20th day of June in the crop year and ends with the completion of harvesting.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the insured crop is abandoned or destroyed in accordance with subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying 80 per cent of the allotted poundage applicable to the damaged acreage less any potential production determined under subparagraph 2 by one-half the contract price per pound.

(4) Where the crop is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

(5) Subject to subparagraph 6, where,

- (a) one-half of the total gross income from the harvested acreage; or
- (b) the actual production from the harvested acreage multiplied by one-half the contract price per pound,

is less than the insurance coverage of the insured person, the amount of loss that shall be taken into account in the final adjustment of loss shall be calculated by subtracting the lesser of the amounts calculated under clause *a* or *b* from the insurance coverage.

(6) The amount of loss calculated under subparagraph 5 shall be reduced by the rental value of any poundage allotment disposed of by the insured person, the amount of which shall be calculated by the Commission on the basis of the prevailing price in the industry less 5 cents per pound.

SECTION B

STAGE 1

7.—(1) Stage 1 comprises the period from the commencement of planting or noon of the 20th day of May occurring first in the crop year, whichever is the later, to noon of the 20th day of June in the crop year.

(2) Where loss or damage occurs in Stage 1, the Commission upon application therefor in writing by the insured person may consent in writing to,

(a) one replanting of the damaged acreage and, in such case, the replanting shall be completed not later than the 20th day of June in the crop year or not later than such other date as may be determined from time to time by the Commission; or

(b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres.

(3) Where the damaged acreage is replanted to the insured crop in accordance with clause *a* of subparagraph 2, the contract of insurance shall continue to apply to such replanted acreage.

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying 40 per cent of the allotted poundage applicable to the damaged acreage by one-half the contract price per pound.

(5) Where the damaged acreage is not used for any other purpose or the crop is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 4 shall not be taken into account in the final adjustment of loss.

(6) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and to calculate the amount of loss in the manner prescribed in subparagraph 4 with respect to such damaged acreage

and, where notice of such intention has been given, the Commission shall calculate accordingly the amount of loss to be taken into account in the final adjustment of loss and the value of the insured crop on such damaged acreage shall not progress beyond Stage 1.

STAGE 2

8.—(1) Stage 2 commences at noon on the 20th day of June in the crop year and ends with the completion of harvesting.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the insured crop is abandoned or destroyed in accordance with subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying 80 per cent of the allotted poundage applicable to the damaged acreage less any potential production determined under subparagraph 2 by one-half the contract price per pound.

(4) Where the crop is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

(5) Where, upon completion of harvesting,

(a) one-half of the total gross income from the harvested acreage; or

(b) the actual production from the harvested acreage multiplied by one-half the contract price per pound,

is less than the insurance coverage of the insured person, the amount of loss that shall be taken into account in the final adjustment of loss shall be calculated by subtracting the lesser of the amounts calculated under clause *a* or *b* from the insurance coverage.

9. In every loss calculation made under Section B, where the actual production is less than 80 per cent of the allotted poundage, the amount of loss so calculated shall be reduced by 25 cents for each pound by which the actual production falls short of 80 per cent of the allotted poundage.

HAIL DAMAGE BENEFIT

10.—(1) Where the actual yield in pounds of any crop insured under Section B is reduced by hail damage below the allotted poundage, the Commis-

sion may pay a hail damage benefit and may adjust the actual yield and in such case the yield to count may be calculated according to the following formula:

(percentage of allotted
poundage attained — 36)

64

×

allotted
poundage

(2) The hail damage benefit payable under subparagraph 1 shall be the amount by which the actual yield exceeds the yield to count calculated at the rate of 25 cents per pound.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.
